Date: December 4th, 2000

SUBJECT: Colombia - Soya Report

In Colombia it has been a wonderful help to receive the Vita Pro Soya product that has been donated by Global Champions. So many persons have been blessed by this nutritional food.

When we received it, we didn't know how to use it, so we decided to use it first in our homes, to taste it and learn about it. We discovered that it was very versatile and yield product, because with just a big spoon of it we can make a hole meal, just mixing it with meat or chicken, and vegetables or other different ingredients. At the same time it was very easy to use and it didn't need too much to dissolve it, only hot water.

With this kind of product, people in my church made different meals like: hamburgers, meat turn over (empanadas), goulash (mixture with mixed vegetables), chili with red kidney beans, spaghetti, meat pie, lasagna, etc.

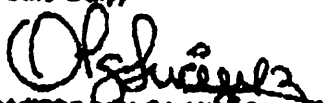

Because of its high nutritional value we found that it will be ideal to give to the children in their normal diet and more important if they have nutritional problems and diseases, and for senior people. At the same time because it was easy to use it will be very helpful in the case of people who live in difficult situations, like the displaced people and the homeless people from the earthquake who at that time and actually live in tents.

We wrote some instructions and recipes, and began the distribution. We gave the Soya to different child centers in Bogotá, including Noah's Ark Children Center, Children's vision and children in extreme poverty in Bolivar City (1200 approx.). At the same time it was sent to the homeless people because of the earthquake in Armenia, some children centers and senior homes in Pereira, displaced people because of the violence in Colombia that are living presently in tents in a city called Villavicencio (approx. 400 families). Also it was distributed to different organizations of pastors who delivered the Soya to their families and people in their churches. We are faxing as sample 16 responses or request, but approx. 150 churches received the product of Soya and used it with excellent results.

Actually there is a big problem in Colombia in a region called Putumayo, where guerrilla have blocked the access roads to the zone, obstructing the entering of food and goods to the people of this place. With the help of the government, the Christian church will be flying supplies to the region in order to help this needy people that actually are suffering of hunger, and the Soya product will be an excellent and versatile help for the people in this place, so any donation will be greatly appreciated.

Once again, Thank you for all your help and donations for my people in Colombia.

Yours truly,

PASTORA OLGA MUNOZ
