Dear Mr. Yaak Barry &
Global Village Champions

It is difficult to describe the suffering that continues to plague the people of Mozambique and yet we also see God's love for His people as acts of kindness pour forth giving hope in spite of natural disaster and economic ruin. Your gift of Vita Pro Soya came to our country at such a time that many people were left without any visible means to survive. Due to the devastating floods that hit Mozambique, people were stranded in remote areas without food, shelter, clothing and medical attention. Some people were stranded in trees waiting and praying someone would save them. We were able to implement your donation of food into our survival kits for hundreds of thousands of devastated Mozambique people.

We still continue to try and meet the great need of this country. Even in their suffering the people of Mozambique someone hang on to hope. They walk for miles many without shoes or food searching for means to survive and save their families.

If possible for your good organization to send another shipment of Soya, we would be most grateful.

With sincere thankfulness,

Gren Burgess,
Relief Co-ordinator
